About Me

A recent Information Technology graduate with a passion for creating responsive, user-friendly, and visually appealing web applications. Proficient in PHP, Laravel, JavaScript, HTML, CSS, Tailwind CSS, MySQL, and React, with hands-on experience developing full-stack projects. Recognized for excellence in capstone research, I am eager to contribute my technical skills, creativity, and commitment to building high-quality web solutions.

Skills

- UI/UX Design & Prototyping (Figma)
- Front-End Development (React, Tailwind CSS)
- Back-End Development (PHP, Laravel, Node.js, Java)
- Database & Authentication (Supabase, Firebase, MySQL)
- Mobile App Development (React Native)
- Version Control (Git)
- Microsoft Office (Word, Excel, PowerPoint)

Education

Bachelor of Science Information Technology

St. Peter's College

2022 - 2026

Recognized as Best in **Capstone Project** and **Research Presenter** at St. Peter's College for demonstrating excellence in innovation, research methodology, and project development. This achievement reflects a strong commitment to academic excellence, critical thinking, and creating impactful, technology-driven solutions.

Experience

Intern Full-Stack Developer

Pixel Digital

Jan - May 2026

- Developed the JobMarket Iligan system, including both the client-facing website and the administrative dashboard.
- Built and maintained front-end and back-end features using modern web technologies.
- Collaborated with the development team to implement responsive, user-friendly interfaces and system functionalities.

Part-Time Full-Stack Developer

Pixel Digital

May 2026 – Present

- Developed the MDRRMO Linamon web-based management system and administrative dashboard.
- Developed the CebuTop corporate website.
- Assisted in building the ICI mobile application using React Native.
- Worked on full-stack development, including front-end, back-end, database integration, and system maintenance.
